

About The Doctors

Adam J. Brand DDS, MS

Dr. Brand received his bachelor's of science in biochemistry at UCSD. He then attended the University of Southern California for dental school where he graduated with honors in 1999. Also at USC, he completed an additional three year orthodontic residency receiving a Master of Science in Orthodontics and has been practicing in San Diego ever since.

Dr. Brand and his wife Carina have two children. Together, they enjoy hiking, cooking and traveling. In his free time, Dr. Brand loves to play many sports, especially golf, tennis and basketball.

Larry Okmin DDS, MS

Dr. Larry Okmin has been practicing orthodontics exclusively since 1973. He attended San Diego State University for his undergraduate studies and received his Doctor of Dental Surgery degree from UCLA in 1971. Dr. Okmin completed an additional two years of study and received his specialty degree at Loma Linda University, earning a Master of Science in Orthodontics.

Dr. Okmin is a native of San Diego. He and his wife have two grown daughters and are actively involved in the Tierrasanta community. In his leisure time, Dr. Okmin enjoys golf, photography, travel and playing saxophone and clarinet in a jazz band.

Exceptional

orthodontic care

from a team of

dedicated professionals

creating beautiful

and healthy smiles.

First Visit

The orthodontic needs of each person are unique and deserve personalized attention. Your first visit gives us the opportunity to get to know you and evaluate your orthodontic concerns and goals. After a thorough examination of your teeth and jaws, we will be able to make specific recommendations about the proper timing for orthodontic treatment, how long it will take, what treatment methods are needed, and the cost of your orthodontic investment.

We are certain that once you experience our patient-friendly atmosphere and meet our courteous staff, you will be confident that we are committed to providing excellent orthodontic care to each of our patients.

Right Age for Orthodontics

The American Association of Orthodontists recommends that children have their first orthodontic evaluation at age 7. While many children do not require treatment at that age, early diagnosis and treatment can help guide facial growth and tooth development. Proper timing of treatment can prevent more serious problems from developing.

Orthodontics is not just for children. With esthetic clear braces and Invisalign® treatment options, more and more adults are enjoying the benefits of orthodontics. People of all ages can appreciate the return of their orthodontic investment with better dental health and a great smile.

Excellence in Care & Technology

Our office is designed for maximum efficiency, patient safety and comfort. Our staff members are highly trained professionals who consistently refine their skills through continuing education.

To stay up-to-date with new developments in orthodontics, our staff regularly attends seminars and conferences devoted to orthodontic treatment, new technology, modern materials and patient care.

Dr. Brand and Dr. Okmin maintain a current knowledge of the latest orthodontic technology and techniques through active membership in several professional organizations:

- American Association of Orthodontists (AAO)
- Pacific Coast Society of Orthodontists (PCSO)
- California Association of Orthodontists (CAO)
- American Dental Association (ADA)
- California Dental Association (CDA)
- San Diego County Dental Society
- San Diego Academy of Orthodontists
- Certified Invisalign® Orthodontists

Fees & Insurance

Fees vary and are based on your individual treatment. For your convenience, we offer a variety of payment options. If you have dental insurance with orthodontic benefits, Flexible Spending or Health Savings accounts, our knowledgeable staff will assist you with submitting your claims.

Thank You

Thank you for choosing our office for your orthodontic care. We are committed to providing the highest quality orthodontic treatment in a professional, personalized and friendly atmosphere.

People benefit physically and psychologically from orthodontic treatment. Properly aligned teeth look better and function better, improving both self-esteem and self-confidence.

Orthodontic treatment takes teamwork. Working together we can achieve a healthy and beautiful smile for you.
